Yard Waste Removal

Yard waste cannot be disposed of in any Delaware landfill. Yard Waste must be separated from trash and taken to an approved yard waste collection or composting facility, removed by your landscape vendor or picked up by a local vendor for proper disposal.

If you wish to bag and dispose of your yard waste independently, you can take your bags to one of the following collection sites:

- Delaware Transfer Stations are located on Route 5 in Harbeson at 29997 John P. Healy Drive, in Long Neck at 28963 Mount Joy Road, or in Milford at 1170 S. Dupont Highway, among several other locations farther away from Lewes. DNREC's definition of yard waste includes leaves, grass clippings, prunings, garden materials, brush, shrubs, Christmas trees, and tree limbs up to 4" in diameter.
- Grizzly's Landscape Supply on Route 9, three miles west of Route 1 in Lewes at 18412 The Narrow Road
- Stockley Materials in Georgetown at 25136 DuPont Blvd.
- Blessings Greenhouse in Milford at 9372 Draper Road

If you desire a service to pick up your yard waste you can contact Devin Rice of D.R.'s Lawn Maintenance, LLC Sussex Yard Waste Removal www.drslawnmaintenance.com 302.245.9938.
